læs og forstå om Halloween

Name: _____

Class: _____

Mummy

This is a mummy. A long time ago in Egypt, people believed that they would need their bodies after death. They put a chemical called Natron on the dead bodies and wrapped them in bandages.

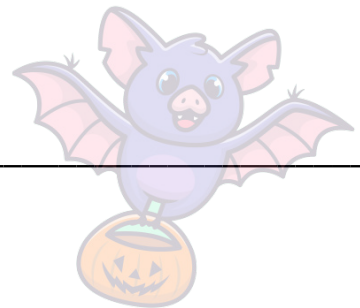

Maybe you think that mummies are not real because you only see them in movies?

That is not true. They are real. But they are not alive like in the movies.

What is the monster called?

What do you think about this monster?

What were the dead bodies wrapped in?

☐ Plastic

☐ Silk

☐ Bandages

What chemical did they put on the dead bodies?

☐ Natron

☐ Chlorine

☐ Sodium

Ghosts

Here is a ghost. A ghost is a spirit from a person who has died. It is said that people become ghosts if they did not have time to do something important when they were alive. Ghosts live in empty houses and only come out at night. They are transparent. The air around them is always cold.

How does a person become a ghost?

A faint, light gray illustration of a black cat with yellow eyes, standing and looking towards the left. It is positioned behind the writing lines.

What does a ghost look like?

☐

White

☐

Transparent

☐

Black

Draw and write

Draw the place where ghosts live.

A large rectangular area with a dotted border for drawing.

If you were a ghost, what important things would you have liked to do before becoming a ghost?

Four horizontal lines for writing.

Zombie

This is a zombie. A zombie is a dead person's body that comes back to life. A zombie's body is rotten. It eats brains and bites people. If a person is bitten by a zombie, they become a zombie too. They walk in a funny way. In movies, people often turn into zombies because of a virus.

How does a zombie walk?

☐

Fast

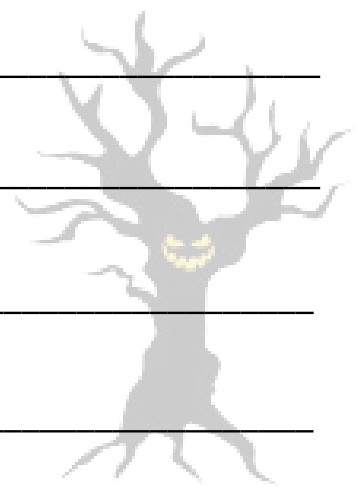

☐

Normal

☐

Funny

Describe a disgusting zombie. How does it look, smell, sound?

What do zombies eat?

☐

Teeth

☐

Brains

☐

Dogs

Vampire

This is a vampire. The vampire bites people on the neck and sucks blood from them. If a vampire bites a person, the person becomes a vampire too. They can turn into a bat and fly. A vampire cannot see itself in a mirror and does not like the smell of garlic. Vampires sleep in their coffins and come out when the sun goes down.

Describe the vampire with 3 words.

What can a vampire turn into?

☐

A person

☐

A bat

☐

A pumpkin

What does a vampire not like? Draw a circle.

Werewolf

This is a werewolf. The werewolf changes when there is a full moon. A person can turn into a werewolf if they are bitten or scratched by another werewolf. They are very aggressive, and the only thing that can kill them is a silver bullet from a gun. Werewolves are much faster and stronger than people.

When does a werewolf change?

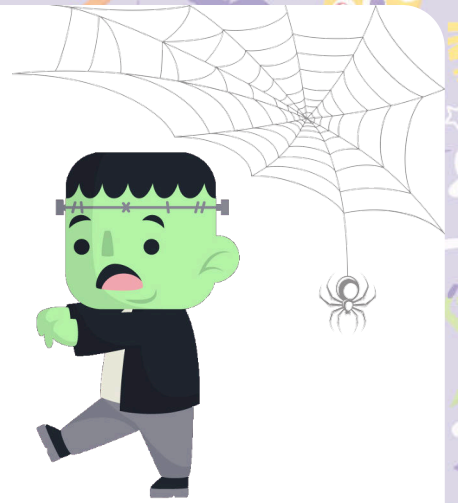

What is the only thing that can kill a werewolf?

Frankenstein

Here is Frankenstein's monster. He was created in a laboratory by a scientist named Frankenstein. The scientist put together different body parts from dead people to make him.

Circle the right answer

1. Frankenstein was created in a (school / laboratory).
2. The scientist put together different body parts from (living people / dead people).

Frankenstein used electricity from lightning to bring the monster to life.

Frankenstein's monster is evil and not very smart. The monster was made by accident by the scientist.

Circle the right answer

3. To create the monster Frankenstein used (electricity from lightning / electricity from thunder).
4. Frankenstein's monster is (evil / friendly).
5. The monster was made (by accident / on purpose).
